Prostatectomy (robotic)
Gamma Knife
Craniotomy

Podiatry

Diagnostic Imaging

Women's Health

Urologic Procedures

Bariatrics (if covered)

General Surgery

Complex Care

Dental Surgery

Better Patient Experience

Your employees gain access to an elite group of U.S. surgeons, and we provide a team of care coordinators to guide your employees through the entire surgery process.

- With National Surgery Network, your savings are so significant that you are able to eliminate any co-insurance, which results in significant out-of-pocket savings for your employees.
- Employees gain access to top quality providers and surgeons across the country.
- Care Coordinators help your employees plan their surgeries, from initial inquiry through provider selection, preparation, scheduling travel, recovery, and follow-up.
- By supporting the patient through the full interval of care and recovery, we can assess the value of the Network based on both cost and outcomes.
- By maintaining our relationship with the patient throughout the recovery period, we are able monitor patient compliance immediately and track long-term outcomes by facility and surgeon.

Why wait for renewal? You can add the National Surgery Network to your health plan today and start saving money on your very next procedure. [Contact us today to learn more.](#)
